### Profile

I am a kind, patient, and proactive person with a initiative and a very good attitude. I possess great communication skills, a high capacity for learning, and experience working in agile teams under the Scrum framework, which enhances my abilities to collaborate effectively within teams. Among my strengths, I excel in web development technologies, with a specialized focus on backend tools such as Java, NodeJS with Express, Typescript, SQL, NoSQL, and version control using Git. My knowledge also extends to the field of cybersecurity, including guidelines for establishing an effective ISMS and the implementation of ISO 27001 standards. I am familiar with security-oriented Linux systems, such as Kali or ParrotOS.

### Education

#### Systems engineering

Universidad de San Buenaventura Bogotá 

2019 – present | Bogotá D. C.

#### High school

Nuevo Gimnasio Campestre Meryland

2018 | Chía, Cundinamarca

### Technologies

#### NodeJS/Express

Backend technologies

#### SQL

DB administration

#### REST API

Backend technologies

### Professional Experience

#### Developer

Banco Popular

6 months | Bogotá, Colombia

I worked as a developer at the Banco Popular's Digital Lab, leading an initiative that utilized Artificial Intelligence and Language Models to provide guidance to bank officials on Bank's methodological topics through a chat channel using NodeJS. I implemented OOP and clean architectures to build an scalable and efficient solution, understanding the stakeholders necessities and troubleshooting code issues.

### Skills

- Advanced English
- Adaptability
- Proactivity
- Patience
- Team work
- Empathy

#### HTML/CSS

Frontend technologies

#### Git & Github

Version control system

#### AWS

Basic knowledge in Serverless computing

### Extra

**CodigoFacilito**  (Git Professional Course Javascript Professional Course)

**Fundación Telefónica Movistar**  (Web design course with HTML5 and CSS)

**Entrepreneurs in Action Course**  (Edutec S.A.S.)

**MLH - MakeUC 2021**  (Virtual and on-site Hackathon by University of Cincinnati)

**Sabana Hack 2022**  (On-site Hackathon by La Sabana University)
